

**Mother's Day-Father's Day
Baby Bottle Campaign**
starts May 10th

2026 marks 15 years since Abiding Care opened its doors.
15 years of coming alongside women and their families
facing an unplanned pregnancy, bringing hope and help.

So much has changed since 2011. But our mission remains the
same. God has faithfully kept this work going through our
amazing donors. Let's keep this work going for many years to
come - there is MUCH yet to be done!

Will you join us?

Please consider taking a bottle bank or donating online at
investingcare.org to help us in this effort!

*If you or someone you know is suffering silently with a past
abortion, please see the back side for online
help options.*

Find HELP Find HEALING Find HOPE

in the safety of your home

While the abortion industry is insistent that everyone “shout their abortion”, thousands of women suffer silently – once afraid to speak up in the pro-life community, now also afraid to speak up in the pro-choice community – feeling they must be the only one suffering this way.

We want you to know you are not alone.

Post Abortive Syndrome is *very* real.

But so is the forgiveness and the freedom in Christ! We understand you may not want to reach out locally, so we have compiled a listing of online Abortion Recovery ministries, led by post-abortive women who are now walking in that forgiveness and freedom and ready to walk with you – regardless of whether your abortion was days or decades ago. Thousands of women are finding the peace and hope they were longing for. Please give them a look:
